Cut Score:
Analysis: 2014 report:

Over 40% of our Employer surveys were returned. The results were 100% positive.

Action: 2014 report:

The percentage of results returned falls below our threshold for a single year, and is being addressed with:
1) Having the surveys run for a longer period of time in the year.
2) Providing instructions on returning employee surveys at EMS community functions throughout the year, when we see these employers, in an attempt to demonstrate importance of return.

Evaluation System: Graduate Survey - Cognitive
Cut Score:
Analysis: 2014:

Though our return rate does not meet the threshold, this year we did ensure we had email addresses for all our Air Force students ("PJJs") who have been deployed and included them in the survey process, and our efforts to reach them, as well as increase our response from our traditional students.

We will continue to work to improve the return rate, as well as perhaps simplify the review process. Between UNM and CoAEMSP end-of-course reviews, the students spend hours in reviewing the course every year, and perhaps burn out on the process.

The cognitive results were 100% positive.

Action: 2014:

We are continuing to work on a solution for poor return rates, detailed below.

We've continued steps from previous years' action plans:
1) Graduation forms are filled out by all students prior to graduation. This includes a personal email address on it, which will assist in contacting the students better.
2) Updating contact information before graduation
3) Our student alumni association continues to thrive.
4) In our acceptance packet with all the information the students need for the year, a copy of the survey and information about how it will be sent out 6 months after graduation - so they are prepared for the survey request, and know how vital it is to our accreditation process.
5) This information sheet is provided at graduation as well.

Positive Placement

Evaluation System: Positive Placement
Analysis: 2014 report:

80.30% of all students are employed, are continuing in the military (employed as Paramedics / Pararescuemen in their respective units), or completing the rest of their bachelors degree with our program.

Action: 2014 report:

Will continue to monitor positive placement, however the percentage requires no action plan changes at this time.
